CHOZEN PROJECT SEMINAR

Prof. Amar Flood, Ph. D.

Professor

Department of Chemistry

Indiana University, Indiana, US

**“Anions and their recognition, assembly,
and polymerization with macrocycles”**

The lecture will cover recent works tackling these anions with shape-persistent macrocycles, such as triazolophane, cyanostar and tricarb. Focus will be on the creation of macrocycles and the discoveries they enable.

11:00am – 12:30pm

Monday, February 19, 2018

201 Lecture Room, Natural Science and Technology Main Hall

HOSTED BY: Prof. Tomoki Ogoshi

ORGANISED BY: Nano Life Science Institute (NanoLSI)

CO-ORGANISED BY: CHOZEN PROJECT

CONTACT: 076(234)4775 ogoshi@se.kanazawa-u.ac.jp
